ENGINEERING SKILLS

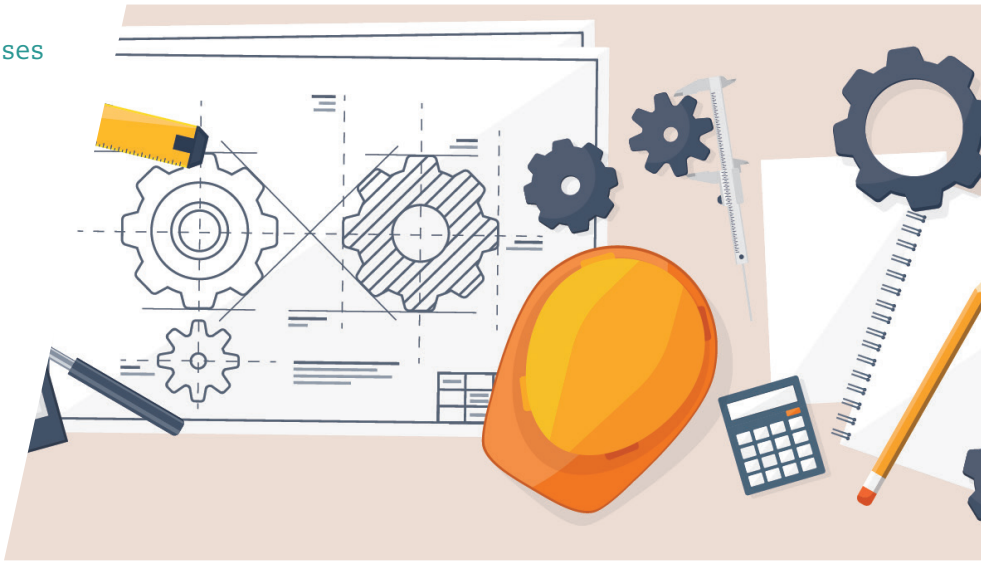
QQI Level 4 (QQI Code 4M2895)

This one year programme is designed for anyone interested in studying Engineering and who may want to progress to Level 5 Engineering Technology Programme or apply for an Apprenticeship. This introductory programme will allow you to explore Engineering, Electrical skills and Woodcraft at a very general and practical level with lots of hands-on exploration of the subjects.

Modules*:

1. Engineering Workshop Processes
2. Electronics
3. Technical Drawing
4. Communications
5. Maths
6. Work Experience
7. IT Skills
8. Workplace Safety
9. Electrical Skills
10. Woodcraft

**Modules subject to change*



Entry requirements:

Students will be subject to an interview and an online assessment in Maths and English.

Frequency:

5 days per week (including Work Experience)

How to Apply:

Contact Eileen on 057 9349431 / 085 8773754, email: ekennaquinn@loetb.ie
